SR-18 UPDATE **BIG BEAR DAM TO BOULDER BAY**

Big Bear Lake - Caltrans will reopen State Route 18 from Big Bear Dam to Boulder May today, Monday, March 27th at 5:00 p.m. Additional removal of contaminated soil became necessary last week as the result of a fuel spill, which took place over a month ago.

The route will remain open for about four weeks until arrangements can be made for final repairs. The final repairs will be completed under reverse traffic control or flagging. Delays are expected to be minimal. Additional information will be released when available.

Caltrans would like to thank the Big Bear community, businesses and travelers for their continued patience during the emergency repairs.

SLOW FOR THE CONE ZONE
